FILE HEADING.

Appointment of reserve vaccinators for each district.

From

The Sanitary Commissioner

No. 4896 Dated 14.5.12 Received 15.5.12

Diary No.	Enclos.	Spare Copies.	Serial No.
6732	1		

BRIEF ABSTRACT OF LETTER.

Recommends sanction to the appointment of two reserve vaccinators for each district and to train also a batch of 16 men in the vaccine Institute by granting them scholarships at Rs 5/- each per month for a period of two months with a view to appt. them as Reserve Vaccinators.

NOTES AND ORDERS.

Q The Sanitary Commr in his letter No 1013 dated the 25th August 09 requests sanction to open a class in the Vaccine Institute Bangalore, for training 12 students as vaccinators. He suggests that each student on admission to the class should pay a fee of

NOTES—First Sheet.

General and Revenue Secretariat. | Govt File No. 127 of 1911-12

Serial No.	
	Rs 25/- and an examination fee of Rs 3/- The proposal was sanctioned in Govt. proc. No 2946-7 dated 24.9.09.
S	2 In the letter under disposal the Sanitary Commr Govt 61-09 proposes to train a batch of Ms men in the vaccine Institute by offering scholarships at the rate of Rs. 5/- each, per month, for a period of two months. This is an additional charge and requires sanction of Govt.
	3 In the rules regarding the staffing of the public Health department in the district, the Sanitary Commr suggests that two reserve vaccinators should be attached to each District Sanitary Officer to fill vacancies due to illness or to relieve vaccinators who may have been granted leave. This rule was observed.
R	(vide Govt. proc. No 3447-57 dated 8.11.11) The Sanitary Commr Govt 150-10 requests sanction to the appointment of 16 vaccinators in addition to the existing No of 89 vaccinators. He has to given the rate of pay of the reserve vaccinators while employed
P	In the Health scheme order No 1378-9 dated 16th August 07, there is a provision to replace Govt 93-08 the existing vaccinators by the appointment of qualified vaccinators.
	4 As the proposal made by the Sanitary Commr

involves a recurring expenditure which have to be considered.

5. Submitted for orders.

24.66 MW
24.5.12 JB

6. It has been decided by Govt in G.O. dated 10th Aug 1909 to replace the present vaccinators by a better class of men - In the statement of fresh men entertained, recently received from the San Comr, there was one man shown as having been employed as vaccinator on Rs 10 The Sanitary Commissioner has been asked whether the appointment is permanent and if so, how it was made in contravention of the Govt order referred to above - The San Comr has not mentioned in his letter now received, what the qualifications of ~~the~~ candidates seeking admission, for training ~~to be proposed~~ should be and what pay would be

Has not this come with some year's cases of deaths of candidates for the Race

given to them when they are employed as vaccinators.

§ 7. As referred to in the above note above, sanction was accorded in G.O dated 24th Sep 1909 for opening a temporary class in the Vaccine Institute to train 12 candidates as vaccinators but Col. Smyth subsequently proposed the appointment of Hospital Apts., as present Sub Apt Surgeons, as vaccinators and this proposal was favourably considered and orders issued to begin the experiment on a small scale by the employment of two medical men as vaccinators. It is not known whether this experiment was tried. No report has been received from the Sanitary Comrs. as regards the result thereof.

Vide G.O. dated 14th July 1910.

§ 8 Before proceeding further with the proposals now received from the Sanitary

Considered unnecessary to give a scholarship and further fees were levied from the candidates. The Sanitary Comr does not give any reasons why a similar arrangement should not be made now also and unless there are very strong reasons for not doing so, it is suggested that the arrangements of 09 which does not involve any Expr on Govt may be adopted.

But the point is, did the arrangement of '09 work & produce satisfactory results? It is necessary to ascertain this before asking them to allow the method of 09. M. 24/8

16 Regarding the appointment of 2 reserve vaccinators in each District, see Sanctioned 8.11.11 — Whether this reserve is to be attached to the District office is to come from the men already appointed or whether it is intended as an addition to the scale is not clear. If the latter is the intention and if the G.O already passed may be reconsidered, it is to be stated that 16 reserve vaccinators appears to be somewhat high for the actual number of changes viz 8 9 — If they are to be appointed there will be an increase in recurring Expr of, from 12 × 16 × 12 p.a to 18 × 16 × 12 p.a i.e 2304 Rs to 3456

The figures of the Sanitary Commr himself favour this. 24/8 1912

(1) Was the vaccination class sanctioned in the G.O. of 24.9.09 opened & if so with what result. How many men got into the service through that class & were they of the right stamp?

(2) The question of having an adequate and well-qualified staff of vaccinators for each district still seems to remain unsolved. Col. Smyth's scheme of having Sub-Asst Surgeons for vaccination work all through, though approved by Govt has no prospect, as far as I can see, of ever coming into effect. As it is, it is difficult to get properly qualified Sub-Assistant Surgeons for regular medical work. Under these circumstances may I suggest a possible solution?

(3) The efficacy of inoculation for preventing plague has now been fairly established. It may be claimed that many thousand men in this State have been saved from death by inoculation. Will it not be better to have instead of ill-paid vaccinators, a class of men with better prospects styled "Vaccinator and Inoculator." Their pay & prospects may be somewhere between Sub-Assistant Surgeons and the present class of vaccinators. A staff of such men in each district doing vaccination work at ordinary times but devoting their energies to inoculation on the

NOTE—Contn. sheet.

GPE—65,000—17-6-12.

the outbreak of plague would indeed be a blessing.

(4) If the idea is generally approved the Sanitary Comm. may be asked to work up details and submit formal proposals. This scheme will also have the advantage of throwing open something better to those of our present vaccinators who are fairly good. It may not be difficult to train men of the class referred to in (3) above for inoculation work.

(5) If Govt do not think it necessary to take advantage of the present opportunity of creating a class of "Vaccinator-Inoculators" the proposal of the Senior Surgeon for having Reserve vaccinators may be sanctioned. But according to figures furnished by the Sanitary Comm. a reserve of 8 — one for each district would be ample. It is stated that- "14 places were vacant during the last calender year for periods varying from 1 to 7 months". Taking the average period at $3\frac{1}{2}$ months, the vacancies work to $14 \times 3\frac{1}{2}$ or 49 men-months. Eight men for the whole year would mean 8×12 or 96 men-months i.e. nearly double the requirements. A reserve of one man for each district properly shifted according to necessity under orders of the Sanitary Comm. will therefore suffice.

(6) I would respectfully urge however that if there eight men to be entertained are properly trained Vaccinator-Inoculators", benefit to the people + economy will be secured in the long run + the prospects of the service will also improve. Gradually as vacancies amongst vaccinators occur they may be replaced by Vaccinator-Inoculators.

at any near future. The medical department purpose is greatly embarrassed for want of suffi: funds & suit: appointments for proper medical work.

Clause (4) The suggestion no doubt is an excellent one but inoculation against Plague is a work that cannot & should not be entrusted to any but professionally qualified hands i/c, those that have been trained in a medical school or College. On many an occasion inoculated subjects faint away & the operator should know what to do to revive such subjects. There might be bleeding from a vein or injury to a nerve caused by inoculation. A half educated man would be worse than useless in attending to such an injured person.

23 It will not therefore in my opinion to have such "men whose pay & prospects may be limited better" If we should have the right sort of men as "vaccinators and inoculators" we must pay them well & the cost will be very very great. Should the whole State be provided with such men.

24 A reserve of 2 vaccinators for each District is I still think necessary. In malnad tracts what are called "villages" are so far apart from each other & the ground to be covered by a vaccinator is so great that extra men will not be thrown away. In malnad tracts these reserve men may be attached to the staff of the Rev: Authorities while not employed on relief duty and find efficient work extracted from them.

29 With due deference to the opinion of the Senior Surgeon I venture to think that it is not impossible to train a class of Vaccinator-Inoculators who will be safe and efficient and at the same time less costly than regular Sub-Assistant Surgeons. Two years training locally under our best medical men should make a lower Secondary passed man into an efficient Vaccinator-Inoculator. The idea seems to me to be so attractive in the interests of the plague-stricken population that I would suggest that it be referred to a Committee of medical officers with the Senior Surgeon as President. They may be asked what training would be required & what pay sufficiently attractive. This would also afford a solution of the apparently insolvable vaccinator problem.

30 In case the idea referred to above is not approved I agree to 8 additional vaccinators one for each District as calculated in para 5 of my note of 24-8-12.

Draft of trial note by the Second Councillor.

Subject :- Sanitary Commissioner's proposal for the training and appointment of 2 Reserve vaccinators for each District.

In reporting the occurrence of 13 vacancies among vaccinators during 1911-12, the Sanitary Commissioner represented that for want of relieving hands, the places remain vacant for a considerable length

length of time & that such vacancies would seriously affect vaccination work in the State. The difficulty experienced by the Sanitary Commr has been the want of trained men to take the place of absent vaccinators. The remedy suggested by Dr P.S. Sethyuta Rao was to ~~[illegible]~~ maintain 16 Reserve Vaccinators at the rate of 2 men for each Distt. He thought the addition of four to select a batch

batch of 16 men for being trained in the Vaccine Institute for a period of two months and to offer a Scholarship of Rs 5 each per mensem Each Candidate should be required to bind himself to serve the Mysore Govt. for a period of not less than five years after qualifying himself as a Vaccinator The pay of the Reserve Vaccinators was proposed to be fixed at Rs 12-$\frac{3}{5}$-18 per mensem.

2. The Financial Secy noted that 8 additional Vaccinators

Vaccinators, one for each District, might be Sanctioned.

3. The proposals of the Sanitary Commissioner as modified by the Council in its accompanying Resolution may be approved.

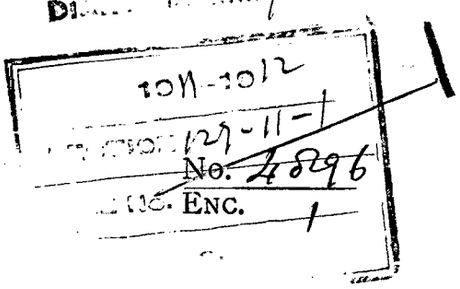
DEPARTMENT OF PUBLIC HEALTH IN MYSORE.



OFFICE OF THE SANITARY COMMISSIONER
WITH THE GOVT. OF MYSORE,

Bangalore, dated the 14th May 1912.

From

P.S. Achyuta Rao Esq.,
Sanitary Commissioner with the
Government of H. H. the Maharajah
of Mysore, BANGALORE.

To

C.S. Balasundaram Iyer Esq., B.A.,
Secretary to the Government of
His Highness the Maharajah of Mysore,
General and Revenue Departments,
BANGALORE.

SIR,

I have the honor to enclose for the information of Government a statement showing particulars of vacancies that occurred in the Vaccination Department during the last calendar year and to state that for want of relieving hands the places remained vacant for a considerable length of time, thereby retarding the progress of Vaccination in Districts. It will be seen that altogether 14 places were vacant for periods varying from 1 to 7 months, and taking the monthly average number of vaccinations performed by each vaccinator at 65, this represents a fall of 2795 cases for the whole Province. Such decrease is entirely preventible: and besides, in view to meet efficiently emergencies such as outbreaks of small-pox, vacancies should filled up with the least possible delay. But the difficulty has been to get trained men to accept appointments which being mostly of a temporary nature, would not be worth while to take up. Out of the 6 men that were

GEN. & REV. DEPTTS,
BANGALORE.

Dated 14 MAY 1912

Despatched

Received

General No. 4896
No. 01

Enclosure No. one

SUBJECT.

Recommending the training of vaccinators, with Scholarships, in the Vaccine Institute, Bangalore

CAXTON PRESS, BANGALORE, 500-11-11.

were trained in the Vaccine Institute during the quarter ending 31st March 1912 two applied for appointments and of the two only one could be induced to take up a place temporarily for 3 months on the Kolar Gold Fields. I am of opinion that under the circumstances the employment of Reserve Vaccinators at the rate of 2 for each District approved in Government Proceedings No. 3447-57 Sany. 150-10-2 dated the 8th November 1911 is imperative and request that sanction may be kindly accorded for their immediate employment.

2. To ensure that men of the right sort are appointed and that the training they receive is satisfactory I propose offering scholarships at the rate of Rs.5/- each per month for a period of two months to a batch of 16 men and have them trained in the Vaccine Institute. The condition of the grant of scholarship will be that the candidate will bind himself to serve the Mysore Government for a period of not less than five years after qualifying himself as a vaccinator. I request that sanction of Government may be accorded to this proposal also at a very early date.

I have the honor to be,
Sir,
Your most obedient servant,

C. J. Agnihotri

Sanitary Commissioner.

Thos Sanitary Commissioner

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Sanitary), dated 21st June 1913.

READ—

Letter No. 4896, dated the 14th May 1912, from the Sanitary Commissioner, recommending sanction to the appointment of two reserve vaccinators for each district and also to train a batch of 16 men in the Vaccine Institute, Bangalore, by granting them scholarships at the rate of Rs. 5 each per month for a period of two months, as considerable difficulty is experienced for want of trained men to be appointed as vaccinators.

2. Correspondence ending with letter No. 127, dated the 9th July 1912, from the same officer, stating that the standard of general educational qualification for candidates to be trained as vaccinators may be fixed as the Lower Secondary Examination in Kannada and, if English knowing candidates become available, completion of the 4th standard studies would be sufficient and that their pay may be fixed at Rs. (12—$\frac{3}{5}$—18).

No. 10062-3—SAN. 127-11-4, DATED BANGALORE, 21ST JUNE 1913.

ORDER THEREON.—The appointment of eight reserve vaccinators at the rate of one for each district, is sanctioned. They may, as proposed by the Sanitary Commissioner, be trained at the Vaccine Institute, Bangalore, for a period of two months on payment of a scholarship of Rs. 5 each per month, and then appointed as vaccinators on a pay of Rs. (12—1—15).

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Sanitary Commissioner in Mysore.
The Comptroller, Mysore Government.

OFFICE OF THE SANITARY COMMISSIONER
WITH THE GOVT. OF MYSORE,

Bangalore, dated the 9th July 1912.

From

P.S. Achyuta Rao Esq.,
Sanitary Commissioner with the
Government of H. H. the Maharajah
of Mysore, BANGALORE.

To

K.R. Srinivasa Iyengar Esq., M.A.,
Secretary to the Government of
His Highness the Maharajah of Mysore,
General and Revenue Departments,
BANGALORE.

SIR,

In reply to your No. 30 Sany. 127-11-2 dated the 2nd Instant, I have the honor to report that I would fix the standard of general educational qualification to passing the Lower Secondary Examination in Canarese. Should English knowing candidates be available completion of the 4th standard studies would be quite enough for our purposes.

2. I would for such educated men give Rs. 12/- rising to Rs. 18/- by quinquennial increase of Rs. 3/-.

I have the honor to be,
Sir,
Your most obedient servant,

P. Achyuta Rao

Sanitary Commissioner.
